**MOTILAL OSWAL**

## THE POWER OF 2 AT THE COST OF 1

Making Investors feel like a KING

**Mr Krishnanand Narnolia**  
Group Chairman & MD  
Narnolia Group of Companies

"The immense trust of our clients and all stakeholders has made Narnolia the Largest Broking firm of the East and one of the Leading Research Advisors & Fund Managers in the country.

In this journey of 23 years, we had spent over 15 golden years with Motilal Oswal. Our common values, ethical practices and mutual trust have kept this relationship going strong even during the short period of 2-3 years when we were competing with each other in Broking.

The recent changes in the Investment Advisory Act has paved the way to reunite with Motilal Oswal for a much larger and deeper association this time which, I believe, would help our clients to get the best of both the brands under one roof, at no extra cost."

**Mr Motilal Oswal**  
Group MD & CEO  
Motilal Oswal  
Financial Services Ltd.

"I have personally known Krishna Ji for more than 15 years. I have experienced his passion and big thinking. I also admire his vision, strategy and ability to take bold decisions in the larger interest of the clients, employees, partners and the organisation.

If I want some strong customer insight, he is the person I call upon.

I believe this reunion of the two organisations with 15 years of strong relationship based on trust, ethics and customer-first approach will benefit the clients and all the stakeholders. My best wishes."
