Eagle M	33.35	0.42%	0.11%	1.71%	233.48%	107.45%	1. MIDCAP outperformed LARGECAP as a whole last year. While this trend may continue for some time, but there is likelihood that the diversified or Large Cap dominated funds might start outperforming the MIDCAPs in general. Hence, one should have a mix of EAGLE 3T/Eagle LT along with MIDCAP to 50%. 2. TVS sud be opted only by those who have the risk appetite of 4 months of consistent negative return and it sud not be treted as risk free product. This idea is better than other option strategies followed in the market.. thats it!
