

SGX NIFTY : 8055 (11 Pt Down)

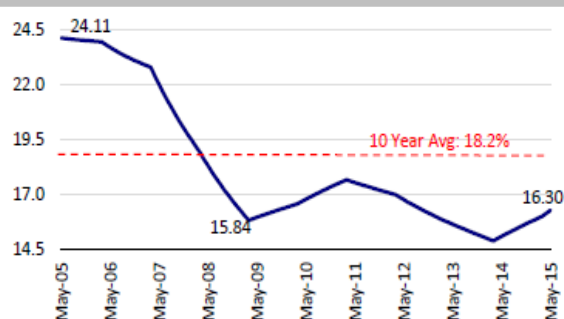

Quote of the Day

"Charlie and I decided long ago that in an investment lifetime it's too hard to make hundreds of smart decisions. That judgment became ever more compelling as Berkshire's capital mushroomed and the universe of investments that could significantly affect our results shrank dramatically. Therefore, we adopted a strategy that required our being smart - and not too smart at that - only a very few times. Indeed, we'll now settle for one good idea a year."

Top News

- **Century Ply Mgt Guideline** : Company is hopeful of sustaining EBITDA margins at current levels of around 16 percent for two years on back of reduced raw material costs. "Raw material costs controlled on account of operations in Myanmar . The demand scenario still remains tepid and even though the company took some price increases, it is not helping their topline . Among their two businesses – plywood and lamination, the second is growing well because basically it is a relatively new business for them and as of now they are still catching up with the larger players. Meanwhile plywood has already reached a certain level and it is tough to see it grow in a big way
