Blended utilization stood at 110 percent this quarter . Company has a lot of money on the balance sheet, Rs 525 crore plus and by the time the auctions happens the number will only grow. Company is also very clear about strategy; Company want to expand in the major metros with the second frequency & geographically but there has been a bit of a setback because the government's info memo which came out on phase three auctions actually put 15 percent limit which was to apply nationally and at the end of phase three, at the end of the first batch now, which means that there will be certain amount of curtailment in our expansion plans temporarily and then it will pick up again in the second batch.
