

SGX NIFTY : 7908 ( 28 Pt Up)

### Quote of the Day

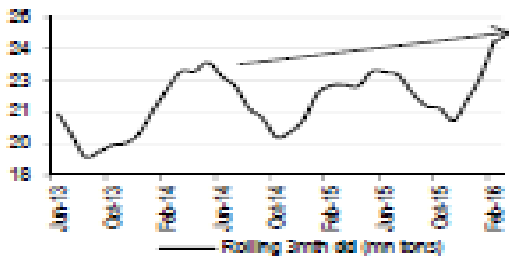

"An argument is made that there are just too many question marks about the near future; wouldn't it be better to wait until things clear up a bit?...face up to two unpleasant facts: The future is never clear [and] you pay a very high price for a cheery consensus. Uncertainty actually is the friend of the buyer of long term values."

Warren Buffett
