Nifty Intraday Chart

Market Outlook

Yesterday, Nifty opened in positive at 10930.55 and it made a low of 10928 and from there it started moving northward towards the high of 10985.15 and closed in positive at 10967.30 gaining 58.60 points. On sectoral from all the sectors traded in positive except IT and PHARMA. India VIX gained by 0.57% to 14.66.

After giving gap up opening, market continue its robust upmove to seventh straight sessions. Despite weak global cues indices continues to pump gains as crude oil dropped almost 10% in this week while INR posted the biggest gain in the last couple of quarters. These are the triggers to a Santa rally for the Bulls.

However index has to sustain above 100DMA for atleast two trading days to further extend its rally. At the same time looking at overbought position of oscillators, possibility of profit booking can't be ruled out. On contrary side a close below 10880 will push prices towards 200 DMA placed at 10760.

Quote of the Day : "The trick is not to learn to trust your gut feelings, but rather to discipline yourself to ignore them. Stand by your stocks as long as the fundamental story of the company hasn't changed." - Peter Lynch

WELCORP	Under Review	14th December 2018
<p>Strong order book of 1.7mt (highest ever) has improved the revenue visibility of the company. Order book has been primarily driven by order inflow from Saudi Arabia for water pipeline and going ahead management expects good traction from US market as well on the back of increase in US oil production propelled by cuts taken by OPEC producers. However, growth in Indian business is expected to be moderate primarily due to high competition in the market. Management expects margins to only improve going forward on the back of order booking done at the peak of steel cycle and an open position for raw material in Saudi Arabia orders, open position is expected to help improve margins due to expected moderation in steel prices. Furthermore, management may look at rewarding the shareholders considering the increasing cash position.</p>		

CANFINHOME	BUY	14th December 2018
<p>CANF loan book has got impacted due to RERA in home region which constitute 50% of the business. However management indicated that growth has been recovering sequentially and loan growth may improve in 2H FY19. Recent liquidity crisis will even help in boosting the growth with easing of competition. NIM of CANF has been under pressure for long time since cost of fund has increased significantly as well as competitive pressure has also impacted the yield. However we believe spread for CANF has bottomed out and yield will start moving up due to increase in interest rate across the product. Increase in refinance from NHB can lead to stable cost of fund. Assets quality remained stable with buffer provisions in the balance sheet. CANF has one of the best C/I ratio (around 14.5%) in the industry. Due to recent correction in bond yield, cost of fund and liquidity is expected to stabilise in medium term which will be beneficial for CANF. We believe worst in terms of growth and profitability is behind for CANF and hence return ratios will improve gradually going ahead. Hence we increase our valuation multiple to 2x BVPS FY20e which increases our target price to Rs 294 from Rs 264 earlier and maintain BUY on the stock.</p>		

Monthly AUTO volume update : November	4th December 2018
<p>The automobile industry has witnessed slowdown in November sales due to various reasons like; increased insurance cost, fuel prices, rise in vehicle prices and the NBFC liquidity issues. The passenger vehicle segment growth remained muted due to sharp increase in ownership cost led by rise in insurance cost, higher fuel prices and increase in vehicle prices. Maruti, Tata Motors and M&M sales were flat YoY. CV sales also declined due to higher borrowing cost, NBFC liquidity issue and drop in cargo sales. Ashok Leyland, Tata Motors and VECV sales declined by 9%, 5% and 4%YoY respectively while M&M posted a growth of 26%YoY. Hero Motocorp sales remained flat YoY due to price hikes and increased insurance cost while Eicher Motors declined by 6%YoY largely due to strike. Bajaj Auto and TVS Motors posted strong growth of 25% and 27%YoY respectively on account of higher discounting, sales promotional activities and strong scooter demand. On the 3 wheeler side TVS Motors, M&M posted a growth of 48% and 28% respectively while Bajaj- Auto sales declined by 3%YoY due to higher base. On the Tractor sales, Escorts and M&M posted a growth of 13% and 56%YoY largely led by strong Rabi sowing, improved growth prospects in rural areas on account of MSP hikes and normal monsoon.</p>	

NBCC	ACCUMULATE	29th November 2018
<p>NBCC has posted strong revenue growth but the margin decline during the quarter due to change in accounting policy and which will sustain at this level. Revenue growth is likely to remain strong on account of pick in execution of large projects. Delhi high court has given nod for redevelopment projects in Delhi and execution is expected to start from January. NBCC has taken up stalled Amrapali project for construction of 46000 units at cost of Rs.8000 Cr as consultant and exploring various options for financing it. Additionally, company has expressed economic interest to acquired debt loaded JPINFRA. So, any update on the same will be key monitorable for near term. We have incorporated lower EBITDA margin in our estimates and reduce EPS by 7/11% for FY19/FY20. We cautiously optimistic on the company and maintain our ACCUMULATE rating owing to the current sharp drop in share price. We value NBCC at 22x FY20 EPS and arrived at target price of Rs.60.</p>		

LUPIN	NEUTRAL	27th November 2018
<p>Sales growth in Q2FY19 remained flat while gross margin contracted by 270 bps YoY. The US business continued to face the pricing pressure but gradually the market has started stabilizing and the management seems confident about the growth in the coming quarters. Japan business was impacted by biennial price cut last year, Japan would continue to be a challenging market as the country is getting ready for another price cut next year. Management has maintained its guidance of 14-15% growth for India business in FY19 based on the growing therapy areas. Going forward, we expect better performance in H2FY19 on account of Ranexa and levothyroxine launch in US, ramp up of Solosec and with flu season coming in, Tamiflu will be good contributor. We maintain our NEUTRAL stance with target price of Rs. 868 (27x FY20e EPS).</p>

Management Interviews

AU Small Finance Bank:

- Liquidity crunch has helped banks as several corporate treasuries have pulled out their money from AMC and parked in the banks. Deposit of AU SFB grew by 10% more than expected. It is offering an interest rate of 6.5% on savings and 7-8% on fixed deposits.
- 40% of the contribution in our loan books is from loan below Rs 25 lakhs to business, traders & services. Now, along with home loan it has started offering 28 products in the last 18 months. Growth of 35-40% is expected in H2FY19 due to the 28 products.
- AU SFB has 400 branches and 100 asset centers at present and it has no plan to expand in FY19. But, it has sent a proposal to RBI for the creation of 100-125 new branches. Additional 100 branches will be launched within 18 months after March 2019 after the proposal is approved by the RBI.
- Presently AU SFB is concentrated in North, Centre & West India only. It has intent to have a pan-India presence and that's why it is willing to go to certain markets like Bangalore, Chennai, Hyderabad and Kolkata as our presence in these cities will help in creating a future market for our business.

DIXON Management Interview:

- Lighting segment has seen a robust demand in industry
- Washing machine segment has a flattish demand in industry
- Xiaomi is looking out for other vendors too in mobile segment but will continue with DIXON in TV segment
- FY19 volume growth of will be 25% - 30% in TV segment
- Order book at current level is 20% higher than last year
- Revenue in FY19 will be higher by 15% and in FY20 it will be better

STOCK IN NEWS

- ❑ **Pfizer Inc** entered into a joint venture agreement with **GlaxoSmithKline Plc** to create a global consumer company. However the entity will not include brands like Corex, Gelusil and Becosules and they will be continued to be marketed by Pfizer's Indian arm in its respective territory.
