**Quote of the Day :** "We should not give up and we should not allow the problem to defeat us."

**YES BANK** "BUY" 27th July 2018

Yes Bank has been continuously beating the street expectation on profitability parameter on the back of stellar growth in loan book. Bank has been continuously gaining market share of better rated corporate client from PSU banks peers. Slippages remained at elevated level but management expects the majority of slippages to get recover in next quarter. NIM comes under pressure during the quarter on account of increased cost of fund, however management expects yield to catch up the cost with lag effect as MCLR has been increased by bank. We expect bank to raise capital soon given the strong balance sheet growth. We largely maintain our estimates and maintain BUY with the target price of Rs 453 at 2.8x BV FY20e.

**MARUTI** "HOLD" 27th July 2018

Maruti has reported strong operating performance in 1QFY19. Net sales grew by 28%YoY to Rs.22459 crores on the back of 24%YoY volume growth and 3%YoY realization growth. Despite sharp increase in commodity prices in last 2 quarters the management has maintained its margin around 15%. Going ahead we expect margins to better in 2QFY19 onwards due to decline in aluminium (-6% MoM) and other commodities which have started stabilizing. Management's strategy to build the supplier base in Gujarat in next 2-3 years will also increase its profitability as the localization in Gujarat plant will improve. Maruti is sitting on a huge cash pile which gives it free hand to focus on product development and marketing & distribution areas. On the back of strong rural demand, improvement in product mix and ramp up of Gujarat plant in FY19 we largely maintain our FY20e EPS estimates. We value Maruti at 26x FY20e EPS to arrive at target price of Rs.9928 and maintain HOLD.

**COLPAL** "ACCUMULATE" 27th July 2018

COLPAL's result for Q1FY19 remained better than our expectation. Key positive for this quarter was EBITDA margin improvement, which was expanded by 436 bps YoY. Volume growth for this quarter was 4% which was slightly lower than our expectation of 6%. Going forward, we expect better volume growth for COLPAL considering revival in rural demand (contributes ~40% of sales), better traction from naturals portfolio and increased direct coverage (looking to expand its direct coverage by 25% in FY19). Pricing action and better product mix will ensure stable margin for the company going ahead. Lower capex for coming year will improve company's cash position further which may translate into better dividend payout for shareholders. We value COLPAL at 37 times of FY20e expected EPS and recommend to ACCUMULATE with the target price of 1210. We have lowered our eps estimate for FY20e by 4% considering slightly lower volume growth in Q1FY19

**LT** "BUY" 27th July 2018

LT has performed well on back of smooth execution of project business and robust growth in services business. We believe that the performance will continue. With management's focus on improvement of RoCE by way of divesting its share in non core business will help to improve return ratio. We expect 13% CAGR growth in revenue and bottom line respectively over FY18-20. We estimate that the RoCE will improve by 140 bps over next two years. We value LT on SoTP valuation method and arrived at target price of Rs.1734 and recommend BUY. We value LT standalone business at Rs.1377 (19x FY20 EPS) and subsidiary at Rs.357 per share.

**SIS** "BUY" 27th July 2018

SIS is the 2nd largest security service provider in India and is a market leader in providing security services in Australia with a market share of 21%. SIS ranks 4th in providing facility management services in India and also is the 2nd largest cash logistics service provider in India. Currently the company has won new orders with monthly revenues of 17 crores and 6 crores from Security Services Business - India and Facilities Management respectively. Also, the company won a key contract from Australia Post, a government entity of around 40 crores. Company's new ManTech initiatives is seeing early success with 38 crores orders won in 1QFY19. In the near terms company may face headwinds related to EBITDA margins in Security Services Business - India due to provisioning taken for clients under NCLT. But considering long terms opportunity we are optimistic as the stock is trading at 32x FY20e EPS), we recommend to BUY this stock with the price target of Rs 1510.

**HDFC AMC** "SUBSCRIBE" 25th July 2018

HDFC AMC is demanding valuations of above 7.5% in terms of MCAP /AAUM. This looks quite high compare to its listed peer. However, the proportion of high margin equity-oriented AUM to total AUM stands at 51.3% viz a viz industry average of 43%. Further, the long tenure SIPs (Systematic Investment Plans) constitutes 77% of total SIPs which provides case for better RoE and operating profits to be maintained going forward. Also, looking at consistent market leadership position, trusted brand, superior and diversified product mix distributed through a multi-channel distribution network prompt us to recommend SUBSCRIBE only for long term investors.

- Net gearing at consol level stood at 1.32x at the end of 1QFY19 vs 1.38x in 4QFY18. Net debt to EBITDA at 2.26x vs 2.57x in 4QFY18.
- Net debt increased by Rs.1070 crore, primarily due to Rs.865 crore mark to market impact of rupee depreciation. Average interest cost stood at 7.09%.
- Resolution plan submitted for Monnet Ispat and Energy Limited approved with modifications, written order awaited. Completed acquisition of 100% shareholding of Acero Junction and acquisition of Aferpi in Italy completed.
- Growth Outlook expected to be stable, do not see slow growth potential in FY18.
- Pipe conveyor work at advance stage and expect it to commission by Sep or Oct. In 1 month of commissioning volume expected to go up to 10-12 mn tonnes of iron ore.
- Pipe conveyor would help to reduce freight cost from current Rs.450-500 per tonne to less than Rs.100/tonne.
- Karnataka Iron ore mining expected to be 29-30 mn in FY18.
- Another 7-8 iron ore mines to be auctioned in next 6-7 months having total capacity of roughly around 10 mn tonnes per annum.
- NSR gone up in line with prices internationally.
- Raw material cost on QoQ basis has gone up by Rs.700-800/t of steel.
- New prices in Apr-Jun, better mix of automotive, better domestic mix gave additional benefit in terms of increase in NSR.
- Flat steel prices stable in quarter and expect it to move in arrange bound manner, do not expect any kind of diversion in steel prices.
- Build up of inventory in coated business because of sharp increase in imports in the quarter, import of coated products continue to be a problem in this quarter as well.
