## View and Valuation

L\&TFH is set to deliver $21 \%$ loan CAGR over FY18-21E, AUM growth will be driven by growth in rural and home loans segment going forward. Amid the recent crisis in NBFC, L\&TFH robust growth in rural portfolio has led by gain in market share in 2W \& Tractor segment. L\&TFH has successfully transferred rise in the cost thus margins remain intact on the rising interest scenario. Due to focus of management on rural and retail financing we expect OPEX to remain elevated. Real estate book is experiencing stress due to postponement of demand \& liquidity issue. Exposure to Supertech (Rs 800 Cr ) remained standard. Exposure to IL\&FS (Rs 1800 Cr) SPVs though remain operational has started defaulting in its loan servicing we will keep a close watch on the 28th Jan NCLAT hearing. The stock is currently trading at $1.7 x$ BVPS FY20e. We maintain BUY on the stock with the target price of Rs 175.
