ESCORT	"BUY"	31th July 2018
<p>Escort has reported a stellar quarterly performance better than our estimates in 1QFY19. Net sales grew by 32%YoY on the back of robust volume growth across segments. Agri Machinery and construction equipment volumes surged by 39% and 52%YoY respectively. EBITDA margin has expanded by 370bps YoY on account of price hike, higher spare sales in railways segment and operating leverage benefit in 1QFY19. The management has increased the domestic tractor volume guidance to 12-15% from 9-11% and also expects margins to expand by 90-100bps YoY in FY19. The management also seems confident on robust growth prospects of construction equipment and railways verticals also based on rural upliftment along with the development of road and railway infrastructure will provide humongous growth opportunity for Escorts going ahead. Going ahead we expect Revenue and PAT to grow at 17% and 26% CAGR over FY18-20 respectively. We value Escorts at 20x FY20e EPS and recommend BUY with our previous target price of Rs.1050.</p>		
SWARAJ ENGINES	"BUY"	31th July 2018
<p>Swaraj Engines Limited (SEL) continued its growth momentum in 1QFY19 also and posted results better than our estimates. Net sales grew by 21%YoY largely driven by 15%YoY volume growth and 5%YoY realization growth. The company has maintained EBITDA margin over 15.5% level despite sharp increase in commodity prices in last few quarters. Favorable product mix, various cost control initiatives coupled with operating leverage benefit has helped to mitigate the inflationary effect to some extent during the quarter. The management of M&M expects tractor industry to grow at 9-10% CAGR for next 2-3 years and factors like successive normal monsoon, improving rural income, easy availability of finance and increasing demand of tractors for non agri segment will support the growth trajectory going ahead. SEL is a debt free and cash rich company. The company enjoys negative working capital cycle which leads to the generation of strong cash flows. We expect Revenue and PAT to grow at 16% and 22% CAGR respectively, over FY18-20E. We value SEL at 23x FY20E EPS, and maintain BUY with previous target price of Rs 2230.</p>		
GCPL	"NEUTRAL"	31th July 2018
<p>GCPL's number for Q1FY19 remained better than our expectations. Positive for this quarter, was 14% volume growth from Indian business and 10% CC growth from Indonesian business (after 7 quarters of muted growth). GCPL has regained lost market share in Indonesian business. Going forward, we expect better domestic revenue growth for GCPL led by new products launches and revival of rural economy. Implementation of Project PI and other cost efficiencies measures will help in maintaining and expanding margin going ahead. But considering recent run up in stock, we see limited upside for GCPL. At this price company is fairly valued. We recommend 'Neutral' rating for the stock with the target price of Rs 1320 (44x FY20e eps).</p>		
GSPL	"NEUTRAL"	31th July 2018
<p>GSPL has posted robust revenue growth of 26% YoY to Rs. 391 Cr but higher interest and tax has resulted in PAT de-growth of 5% YoY to Rs.144 Cr. Demand from City Gas Distribution, power and fertilizer plants remained robust in the last quarter due to complete fuel pricing and non-availability of coal in certain areas. Looking at the current market outlook, we expect demand from power sector to remain high because of lower gas cost as compared to alternate fuel and non-availability of coal. Expansion of City Gas distribution network in 11 geographies by GGL Ltd, is expected to add ~450-550 MSCM volume in next 2-3 years, which will improve the gas volume gradually. This gives us volume growth visibility at CAGR of 18% over FY18-20 to 126 MMSCMD in FY19 and 148 MMSCMD in FY20E. But considering delay in tariff revision and higher non-operating expenses, we remain cautious on this stock. We value the stock at 13.7x FY20e EPS and maintain NEUTRAL rating on this stock with the target price of Rs. 205</p>		
PERSISTENT	"ACCUMULATE"	31th July 2018
<p>PERSISTENT's posted a better set of numbers in 1QFY19 with revenue growth of 11% QoQ mainly led by recovery in IP revenue. Margin expanded 240 bps mainly due to INR benefit and operational efficiency but was offset by SG&A cost. PAT for the quarter stood at Rs 88 crore (growth of 19% QoQ). Going forward, we expect FY19 revenue growth to be better than FY18 on account of healthy pipeline in Services business (due to investments in few products), strong growth in IP revenue (grew 30% QoQ in 1QFY19) and continued traction in digital. However Digital business declined 1% QoQ in 1QFY19 due to completion of project and delay in ramping up of new deals. We still expect digital business to recover in future. Even the management expects digital business to return back to its 30% growth in future. Also, Accelerite business which declined in 1QFY19 is expected to improve in 2QFY19 on back of demand for new products and new project ramping up. On margin front, we expect wage hike to impact margins by 250bps in 2QFY19 however it could be covered over the year because of increased revenues. Even management expects overall 100bps of improvement in margin in FY19 as compared to previous year. Thus, we expect the company to post 14% revenue CAGR over (FY18-20E) and value the stock at Rs.947 (17x FY20e EPS) and recommend ACCUMULATE</p>		
AXIS BANK	"BUY"	31th July 2018
<p>Slippage remained elevated but assets quality showed an improvement due to higher recovery and write offs. Watchlist of BB and below rated pool increased due to aggressive downgrade but management seems to be confident of normalising it. Declining trend in BB and below portfolio will be key important for the bank. Recovery from NCLT cases will trigger the assets quality improvement going ahead. Management maintained the guidance of normalising credit cost in 2H FY19. PCR at 69% gives comfort. Improvement in NIM and higher recovery & up-grade will boost the earning going forward. Change in management will be key to watch. We maintain BUY on the stock with the target price of Rs 664 (2.1x P/BV FY20e).</p>
