Company Vs NIFTY

With the robust performance Indusind Bank posted one of the best result among private sector banks in 4Q FY16 with 37% (YoY) NII growth (nearest competitor DCB Bank with 30%). Assets quality remain stable (GNPA at 87 bps) with 2nd best in the industry. With the positive outlook on the economy, we expect consumer finance division of the company to grow and to maintain the NIM due to loan mix towards higher yield consumer finance segment. Looking at the long term growth potential, we remain positive on stock for investment purpose. But as the valuation has got stretched in near term sense, so we advise part booking profit on the stock.

4Q FY16 Result Highlights : Assets Quality

Gross non-performing assets of the company was fairly stable with marginal increase of 6 bps (YoY) to 0.87% while the NNPA was at 0.36% as on 4Q FY16 against 0.31% a year back. Slippages saw improvement in this quarter with Rs 274 Cr against Rs 449 Cr in the 4Q FY15, a decrease of 39%. Restructured Advances was at 0.53% in 4Q FY16 as same as a year ago of 0.53%. QoQ it decreased by 5 basis point. GNPA on consumer finance improved from 1.16% on 3Q FY15 to 1.08% as on 4Q FY16 where as Corporate advances registered a spike of 16 bps in GNPA from 0.58% on 4Q FY15 to 0.74% as on 4Q FY16.

NII

Net Interest Income of the bank grew by 37% (YoY), NIM improved by 26 bps (YoY) to 3.94% mainly due to fall in cost of fund which declined by 72 bps (YoY) but this fall in cost of fund was offset by fall in yield on assets by 46 bps.

Other Income

Other Income growth has outpaced the growth of Net Interest Income i.e 37% vs 32% respectively for the full year FY16. In 4Q it has grown by 39% to Rs 913 Cr against 26% from Rs 658 Cr in the corresponding 4Q FY15. Fee income growth was 36% (YoY) led by strong loan processing fees growth of 106% (YoY). Other trading income grew by 54% (YoY).

Strong Loan Growth

Loan book saw a growth of 29% YoY to Rs 88419 Cr as on 4Q FY16 from Rs 68788 Cr on 4Q FY15. Loan book was primarily driven by growth in the retail portfolio which registered a growth of 29% (YoY). The pace of growth in corporate book has slowed down from 33% growth in FY15 to 28% growth in FY16. Going forward management expects the loan book with the equal ratio in retail and corporate. As of now corporate book is 59% of net advances.

Key Highlights of Conference Call

- No impact of Assets Quality Review in this quarter.
- Going forward management expects to balance the corporate and retail book equally.
- Management expects the partnership with TATA AIA will boost fee income. Overall fees will continue to exceed loan growth.
- Targeting the PCR to 70%.
- Management expects the credit cost to fall in coming years.

Outlook

Strong NII growth and other income growth are likely to maintain the momentum of growing profitability. Advances growth will be backed by the growth in retail segment growth led by healthy growth in commercial vehicle, LAP, car loan and credit card. With the expected improvement in economy corporate loan growth will pick the momentum. With this we expect the NIM to remain largely stable to little improvement with falling interest rate scenario.
