Outlook & Valuation:

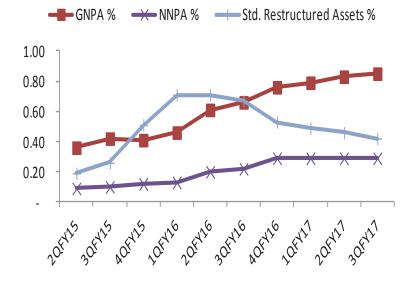

Healthy loan growth with one of the best assets quality in the industry has led the earnings of YESBANK to keep buoyant. More than 75% of the corporate portfolio is rated A & above A, which gives us comfort on assets quality outlook. Increasing CASA with retail FDs is the key trigger for YESBANK for the margin expansion. Focus of the management to increase the CASA & retail FDs to 70% till FY20 from current 59% will further help to improve NIM. Management has hinted towards reducing saving deposits rate to keep the margins intact. We expect the YESBANK to maintain the healthy loan growth of 30% plus which will lead the earnings momentum to continue. The increased pace of branch expansion and headcounts will continue to provide healthy and granular retail fee income. We expect the bank to maintain the RoA of 1.8% and RoE of 21% (before dilution). We recommend 'BUY' and maintain our previous target price of Rs 1607.

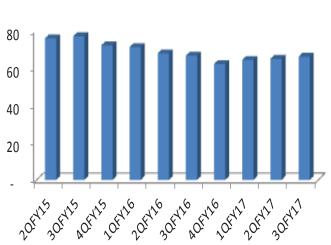

Concall Highlights:

- >> Bank witnessed slowdown in its MFI and business banking in the month of November due to demonetization.
- >> The loan growth in loan book was diversified across all sector. Internation Banking Unit at GIFT city saw the robust growth and Total assets stands about Rs 5500 Cr.
- >> Other Expenses contitute Rs 27 Cr towards PSL certificate. Management highlighted that buying PSL certificate is far more better than doing of PSL loan.
- >> Tier I and increased because bank raised the AT 1 bond during the quarter.
- >> Bank monetized Rs 120 Cr from G-Sec during the quarter.
- >> Average cost of SA would be 6.5%.
- >> Bank did 1 SDR of Rs 195 Cr and it was related to construction company.
- >> Bank may cut saving deposit rate in the month of Feb.
