Cons./ Fig in Rs Cr
The realization is expected to be at Rs. 5335/ ton with flat growth on QoQ basis and $10 \%$ YoY growth. However, some regions like North (contributes $\sim 18 \%$ to revenue) \& South (contributes $\sim 30 \%$ to revenue) did witnessed decline in cement prices in June-July19 but overall the decline is expected to get compensated by stable prices in other regions.

- In 3QCY19, we expect flat volume growth to 6.55 MT with $78 \%$ capacity utilization led by weak off take of cement industry due to slow pace of construction activity, Monsoon and other macroeconomic issues prevailing in the economy. However, the cement demand is expected to pick up in 2nd half of the financial year driven by government initiatives.
Ready Mix Concrete volumes are expected to increase by $18 \%$ YoY to 0.86 Million Cubic metres led by company's focus on value added solutions, strengthened customer network and have also widened national presence with the addition of eight new plants during the quarter. ACC now has 82 operational ready mix plants in India.
E EBITDA Margin is expected to improve by 562 bps to $18.5 \%$ YoY led by higher realization, increased focus on premium product and sales from cost-efficient units of Jamul and Sindri.
- On account of reduced corporate taxes, we have factored Rs. 54 cr. of excess PAT in 3QCY19 and Rs. 108 cr . in CY19. PAT growth excluding excess tax benefit is $99 \%$ YoY for 3QCY19 and 10\% for CY19.

$\square$ We expect flat volume growth from cement at 5.41 MT on YoY basis. Cement demand is expected to remain subdued in 3QCY19 led by weak demand due to monsoon in some regions like Southern India, lower government spending. Thus, Sales is expected to improve by $2.7 \%$ YoY to Rs. 2684 cr. in 3QCY19.
$\square$ The average price in Northern (contributes $\sim 40 \%$ to the revenue) and Central region saw a moderate decline of around Rs. 4-5/bag each M-o-M in July while prices in South, East and west also declined by Rs. $\sim 25 /$ bag on $\mathrm{M}-\mathrm{o}-\mathrm{M}$ basis in July.
$\square$ We expect cement prices to remain almost at the same level in 3QCY19 despite price correction because prices are expected to remain in the existing range because prices have remained stable since long and are sharp decrease in prices is not expected.Thus, the realization is expected to be at Rs. 4965/ ton with flat growth on QoQ basis and 3.7\% YoY growth. However
$\square$ EBITDA Margin is expected to improve by 218 bps to $15.9 \%$ YoY led by higher realization, soft input cost and company's increased focus on its premium products.
$\square$ On account of reduced corporate taxes, we have factored Rs. 14.55 cr . of excess PAT in 3QCY19 and Rs. 29 cr. in CY19. PAT growth excluding excess tax benefit is $19 \%$ YoY for 3QCY19 and 0\% for CY19.

Heidelberg volume for 2QFY20 is expected to be at 1.11 MT . we expect volume to decline by $1 \%$ YoY majorly led by capacity constraint, softness in cement demand due to seasonality, stressed pricing in Madhya Pradesh \& Central region (contributes $\sim 92 \%$ to volumes as of 1QFY20) and lower clinker sale which existed in corresponding previous quarter.
$\square$ The Company's revenue is expected to grow by $5.1 \%$ to Rs. 537 cr. led by stable realization in Uttar Pradesh, company's lower salience on government projects and product mix. However, the cement demand is expected to increase in 2HFY20.
$\square$ Considering supply constraint, the company is focusing on increasing the sale of premium products Mycem power (Premium product contributes, $>13 \%$ of trade volume, expects the same to saturate at $20 \%$ ) volume increased $53 \%$ YoY in 1QFY20 and we expect traction from the same in coming quarters.
$\square$ EBITDA margin of the company is expected to improve by 233 bps to $26.3 \%$ YoY led by higher realization, product mix, reduction in power and fuel led by decline in Pet coke \& crude prices.

Expected CAPEX-Rs. 50 Cr in CY19 and will be funded by cash.
$\square$ On account of reduced corporate taxes, we have factored Rs. 16 cr . of excess PAT in 2QFY20 and Rs. 48 cr. in FY20. PAT growth excluding excess tax benefit is $30 \%$ YoY for 2QFY20 and $37 \%$ for FY20.
