Quote of the Day : "The four most dangerous words in investing are: 'This time it's different.'"

MINDAIND

HOLD

27-Aug-20

The industry has seen gradual recovery in retail demand and the production levels have also reached to ~90% of previous year levels. The management expects better festive season led by positive rural sentiments and improved preference for personal vehicles. New product launches in premium segment with improved kit value, client addition through new acquisitions and huge localization opportunity in the alloy wheel segment (65% imported) will improve the realizations and margins going ahead. We value the stock at 26x FY22e EPS to arrive at a target price of Rs.381 and recommend Hold.

MUTHOOTFIN

HOLD

20-Aug-20

The loan book has registered a better growth of 15% YoY on the back of strong rural demand and growth came from gold loan book majorly. The management is looking at 15% growth for FY21. Collections in non-gold loan portfolio have significantly improved month on month. The operating expense is expected to remain under control going forward. We remain optimistic about the stock as the macroeconomic factors are expected to result in increased preference for gold loan financing and even though the cost of funds is trending at a higher range but management has been able to pass on the hike in cost and expects the margins to be maintained at current level. We maintain our estimates for FY21E and value the stock at 4.1X P/B FY21E at target price of Rs 1329 and give HOLD rating.

ASHOKLEY

ACCUMULATE

19-Aug-20

The management believes CV industry to perform strong and expects positive pressure on volumes from 3QFY21 onwards. The company has robust plans to launch new products from modular platform in the near future. The management expects LCV volumes to catch up early as compared to MHCVs. Going ahead, the margins may expand based on better product mix, operating leverage and new modular platform. However, increased debt levels may impact on overall profitability. We value standalone business at 25x FY22e EPS and Rs.9 per share for HLFL to arrive at a target price of Rs.79 and recommend ACCUMULATE.

BALKRISIND

ACCUMULATE

19-Aug-20

The demand in the agri tyre segment is better based on good monsoon in the European markets. Based on that the management has maintained its FY21 volume guidance and it will be similar to FY20. The company has also gained market share in European markets because of its strong brand positioning. Further margins are expected to be in the range of range of 27-29% considering the favorable commodity prices as well as captive carbon black plant. The management continues to focus on Indian market and expects Indian contribution to increase to 25% from 21% currently in next 2 years. We value BALKRISIND at 24x FY22e EPS to arrive at a target price of Rs.1431 and maintain ACCUMULATE.

BERGEPAIN

NEUTRAL

18-Aug-20

BERGEPAIN 1QFY21 business remained impacted due to nationwide lockdown amidst pandemic. The Company's domestic business remained impacted due complete washout in April which in turn impacted the standalone business. Going forward, the company is receiving good response from Tier III and Tier IV cities as they remained less impacted due to COVID and also the government initiatives to uplift rural will favour demand from these regions while Tier I cities and metros are still under stress due to extended lock down in many regions. The prices are expected to remain stable. On the international business front the subsidiary in Poland is performing well on the back of different nature of business which comprises of application of external insulation on building sites while Nepal remained impacted due to lockdown for almost entire quarter (operated for only 10 days in 1QFY21). On the Margin front, margin expansion is expected to be driven by benign input prices, use of low cost inventory coupled with cost saving measures undertaken by the company while currency fluctuation risk will continue to pertain as the company imports some of the raw materials and also the company's focus to push value portfolio may reduce the margin expansion. Going forward after considering the below average performance amidst operational disruption, slowdown in slowdown in tier 1 cities, stress in demand, labour unavailability we maintain our NEUTRAL rating on stock with a target price of Rs. 404.

Management Interview

BAJAJ-AUTO Management interview

- Reducing the Goods and Services Tax rate on two-wheelers will be great for the industry and that the government needed to give incentives to consumers at a time when jobs have been cut and affordability is low.
- Two-wheelers would be cheaper by Rs 8000-10000 if the GST rate was lowered to 18%.
- The reduction of export incentives has come as a shocker for the industry, with Bajaj Auto itself having lost Rs 300 crore due to the ceiling on export incentives.
- The government should focus export incentives on companies that have the scale to become global players.

TVSMOTOR Management interview

- On expected GST rate cut: Lower GST rate would help entire auto industry.
- Demand has picked up and the company hopes to do better in August than in July 2020.
- The company would wait for few months and then conclude its pentup demand or fresh demand.
- The company is increasingly reducing import dependence on China.

EICHERMOT Management interview

- The enquiries for the two-wheelers are now back to the pre-COVID levels and that the bookings too are catching up well. However, the backlog in the production continues.
- The Company has launched a new mobile application and buyers are now booking motorcycles directly using the app.
- August is definitely better than the previous months. There is a recovery in demand and enquiry, hoping it to continue as well.
- On price hikes – The company has not passed on the full margins of BS-VI.
- The government banning imports of tyres was not a good idea as some tyres were being imported by the company exclusively for exports.

METROPOLIS Management interview

- The company is seeing traction in non-Covid business on a MoM basis. Delhi is looking much better when it comes to non-Covid revenue as Mumbai had a more stringent lockdown which impacted volumes.
- For the non-Covid business, in North & East – the company has seen close to normalcy levels in July & August than in June 2020. In South & West, the major markets like Pune, Bangalore, Mumbai & Chennai has been hit due to covid & will take few more months to normalize for non-Covid revenues.
- The company remains positive on improvement in margin in Q2FY21.
- For the overall industry, the company thinks digital space will see some consolidation going ahead.

LUPIN Management interview

- The company recently received USFDA approval for generic Albuterol Sulphate MDI i.e., gProair used to treat patients with breathing issues. Proair will give access to entire market for Albuterol as per the company.
- The company is looking forward to launch the product in this quarter & expects a steady ramp up through the fiscal year.
- After launching the product in US this quarter, the company expects to launch Albuterol in UK & Europe by the end of the year.
- The entire Albuterol market includes brands like ProAir, Proventil & Ventolin. As per the company, Albuterol will make material impact to the US revenues.

LICHSGFIN Management Interview:

- The builder loan book is less than 7% of the totl book.The company saw good recovery in the same in 4QFY20.Expecting better recovery in the same going ahead.
- Overall moratorium book is less than 25% as of June 2020.Around 16% is the same for individual loan book.
- Most of the disbursements of Rs 3560 Cr. Have been done in june month .The compnay expects disbursements to be good in 2QFY20.affordable housing segment is likely to be doing good going ahead.
