Quote of the Day : "Wealth isn't primarily determined by investment performance, but by investor behavior."

IPO- Route Mobile Ltd.

SUBSCRIBE

08-Sep-20

Route Mobile Ltd is an Omni-channel cloud communication platform service provider with diversified service offerings for enterprises. It is niche player with opportunities amid present pandemic situation and adoption of digital communications tools by companies. However, concerns related to exposure to forex fluctuations, client concentration with 10% clients contributing 63% revenue and declining margins are some associated risk. There are no direct listed peers for comparison, but rising needs of digital technologies may augur well for future growth. At current issue price, the P/E stands at 25.3x on FY20 earnings and 18.5x considering June-quarter annualized net profit. We recommend subscribing for only longterm investment.

COALINDIA

NEUTRAL

04-Sep-20

Lower production and off-take volume due to disruption in dispatches during this pandemic and lockdown across the country. From July onwards, the demand for the coal started picking up. Management is expecting an uptrend in the demand from upcoming quarter. Fall in realization due to lower prices create pressure on margins. Closing offices being too old and unproductive will reduced cost going ahead. Thus, we maintain our stance to remain NEUTRAL on stock with the target price of Rs. 145 valuing at 5x FY21E EV/EBITDA.

IPO- Happiest Minds Technologies Ltd

SUBSCRIBE

04-Sep-20

Happiest Minds is versatile digital business, product engineering and infra management solution provider company. It is well positioned to overcome challenges as it has 97% revenues from Digital space. Company's revenues grew at CAGR of 20.8% between FY18 to FY20. The promoter, Mr. Ashok Soota is an industry veteran and instrumental in growth of bluechip IT companies. He brings with him strong experience adding value to business. On the basis of its trailing earnings and paid-up equity as on March 31, 2020, the issue is priced at a P/E of around 31x (diluted basis) and PBV of 7x based on June 2020 earnings. Considering current rally in IT space, the issue appears to be fairly priced compare to listed peers. Hence, we recommend subscribe for long term investments.

JKCEMENT

NEUTRAL

04-Sep-20

In 1QFY21, despite standstill of operations, JKCEMENT numbers remained better than our expectation. The company witnessed 20% YoY volume growth in grey cement in July & August-20 led by capacity expansion and better execution capabilities. Going forward as of now the cement demand remains under stress on account of severe monsoon in many parts of India while the demand scenario is expected to improve from the middle of September post set back of monsoon on the back of rural demand and resumption of government projects in various parts of India. On pricing front, the cement prices have dropped in a range of Rs. 10-15/ bag due to monsoon in August-20 while in the long-run the cement prices are expected to remain stable. On capacity expansion front, the Balasinor capacity is expected to get commissioned by 3QFY21 while a putty capacity of 3 lakh tonne will get commissioned in Oct-20. On the Margin front, increasing diesel and pet coke prices are expected to put strain on margins in coming quarters. However, lower other expenses are expected to provide some cushion to margins. Hence, considering better performance in 1QFY21 and positive volume growth trends in Aug-20 but vertical lockdowns, rising diesel and pet-coke prices, monsoon and rising number of disease cases still remain the concerns. Thus, we maintain our NEUTRAL rating with a target price of Rs. 1500.

Monthly volume update: August 2020

MACRO

03-Sep-20

The automobile industry is showing strong recovery in overall volumes on sequential basis. The supply chain constraints for OEMs are easing out gradually. The retail demand has bounced back strongly and is reaching previous year demand levels (90%). The demand sentiments are largely driven by improved preference of personal mobility, decent monsoon and good sowing of Kharif crop. The tractor industry reported strong growth of 68% YoY. PV industry and 2W industry grew by 15% and 3% YoY respectively. CV and 3W degrew by 10% and 47% YoY respectively. Going ahead OEM's are optimistic about the upcoming festive season and hence improving the inventory level to meet the demand.
