Nifty Intraday Chart

Market Outlook

On Friday, Nifty opened positive at 13,946.60 and made a high of 13,966.85. From there it moved towards the low of 13596.75 and closed negative at 13634.60 levels. On sectorial front profit booking seen in most of the sector, while Banking and Realty sector traded with positive bias. India VIX closed positive by +4.33% at 25.34.

!! Nifty closed below 50 DMA!!

Index gave a double top pattern break down after decisively trading below 14225 marks. This classical pattern has a lower target of 13670 levels which got achieved in the severe fall of the last week itself. At the same time Nifty has not only closed below 20 DMA but also below 50 DMA indicating markets are in correction mode and can continue to trade with a sell on rise strategy. However, strong support provided by the rising trend line is standing around 13580 marks and any decisive move below it will push the index towards 13450 levels till then prices may give a relief rally towards 14000 marks.

Quote of the Day : "The big money is not in the buying and selling, but in the waiting."

DABUR	NEUTRAL	30-Jan-21
<p>Dabur has reported numbers inline with our expectations with domestic FMCG volume growth of 18.1% YoY led by strong growth from its Health care, Personal care and Foods Portfolio. Going ahead, better performance from rural, urban recovery, increased distributions, traction from the new launches of differentiated products in healthcare, personal care and foods range, lower unit packs (LUP), higher focus on digital platforms are expected to drive sales. On the Trade channels front, E-commerce platforms are expected to continue its growth trajectory led by consumer divergence towards online shopping also General trade and MT are expected to continue its growth trajectory while CSD, HORECA trade channels are expected to recover. On the margin front, the margin expansion will be restricted to lower levels or may remain stable due to input inflation that the company is witnessing in its commodity but the same is expected to be taken care with pricing action, lower consumer promotion and cost saving measures undertaken by the company. Thus, considering lower than expected margin expansion we maintain our NEUTRAL rating with a target price of Rs. 538.</p>		

INDUSINDBK	NEUTRAL	30-Jan-21
<p>NII growth during the quarter continued to be moderate led by interest reversal and lower advance growth though the recovery in fee aided the bottom line it was still down 34% YoY. AUM growth is expected to be moderate in considering management decision to look at corporate book for some time and then growing it. Although the collection efficiency in MFI and vehicle portfolio have improved but with exposure of 1.3% in west Bengal collection efficiency during the next quarter needs to be tracked. Restructuring request for the bank is around 1.8% which is high amongst many banks and although bank has built provisions for it management has guided they would be making prudent provisions which might keep credit cost high. Although bank has healthy capital adequacy given the uncertainty across the MFI segment and Muted guidance on the AUM growth we maintain a Neutral rating on the stock with TP of 865 at 1.4XBVFY22E.</p>		

AUBANK	NEUTRAL	30-Jan-21
<p>NII growth during the quarter was steady although affected to a certain extent on account of lower advance growth. Operating profits were high led by stake sale in aavas financier, management has utilised the gains from aavas sale to build provisioning buffer and expect normalcy in the credit cost from next quarter. Although asset quality is expected to be impacted in Q4FY21 when NPA recognition is allowed but Management has build provision to the tune of 72% of the Pro-forma Gross NPA Collection efficiency trends have improved in almost all segments. Disbursement have grown both sequentially and yearly which shows good business momentum going forward. Capital adequacy of 23% and PCR of 76% puts the company in good position going forward. However given the uncertain conditions prevalent in the economy we remain cautious and maintain Neutral with TP of 952 at 4.5XBVFY22E.</p>		

LT	NEUTRAL	30-Jan-21
<p>Execution has picked up with increase in labour availability and restoration of supply chain. Order book has shown a strong recovery. Order inflow of Rs 73200 cr in Q3FY21 was mainly driven by infrastructure, power and Hydrocarbon segment. Based on the strong collection, borrowing levels are likely to come down by the year end. But uncertainty and lack of clarity on future of development business continue to weigh in stock performance. IT&technology which contributes around 10% to total revenue will grow to be around 30% of total business in next 4-5 years. Company is planning to rollout two digital platforms - Edutech and Sufin in FY21 marking its foray into the business-to-consumer space . We expect services business to grow significantly in coming years .We maintain our NEUTRAL rating on the stock with the target price of Rs 1374 per share on SoTP basis (Core E&C business at Rs 878 per share and Rs 496/share for the Subsidiary business).</p>		

TVSMOTOR	NEUTRAL	29-Jan-21
<p>Higher preference of personal vehicles and strong growth across all international markets were the key drivers of the growth and the management expects it to continue going ahead. The Company is planning series of product launches to be done in 1HFY22, which would further enhance growth prospects for the company. Commodity price inflation impact could be seen in near term though reduction in marketing expenses is sustainable due to increased level of digital marketing. We improve our Sales and PAT estimates by 4% and 17% respectively for FY22E. We value the company at 27x FY22E EPS to arrive at a target price of Rs.550 and maintain Neutral rating.</p>

Management Concall

M&MFIN Q3FY21 Concall highlights

- ❑ Collection efficiency in month of October were around 84% but have moved to 96%-97% in December. Collection efficiency in December improved on account of improvement in business activity in various segment and also in some states crop money started to come in.
- ❑ Sentiments have remain positive and have improved month on month on volume terms but company has still not caught up with Pre-Covid levels as vehicles are still not being made sufficiently available also the cash purchases have gone up in vehicles which has brought down volume for financing. In Q4FY21 volumes are expected to grow.
- ❑ In car segment there is competitive pressure from the state bank with people looking for 7 years loans.
- ❑ Margins are expected to improve going forward with better liquidity management.
- ❑ Management has said that GNPA and provisioning are temporary to this quarter and get reversed in next quarter as company has done no restructuring against expectation of 150000 customers. 90%-95% of the customer have serviced the loan during these 3 months.
- ❑ In stage 2 contracts only 6% did not pay any instalments during Q3FY21 and out of these 2% have a credit balance and 1% who have only 1 or installments pending and there contract is maturing.
- ❑ In stage 3 around 26% of the accounts have started making payments although not enough to get a roll back into a stage 2 or stage 1, looking at the above figures management decided to go with excess provisioning rather than going for restructuring.
- ❑ Out of 1500000 customers to whom moratorium was given upward of 94-95% customers have serviced there loan and customers who have not paid have already flowed into NPA.
- ❑ Management said that if around 150000 customer which they thought would opt for restructuring had done then Gross NPA would have been much lower.
- ❑ Disbursement of 45% comes from M&M and balance from Non M&M. In Mahindra and Swaraj tractors due to some supply constraints as well as cash purchases there is some market share loss and Company got slow in Non-Mahindra tractor segment as there was some pressure post-election in certain geographies.
- ❑ Most of the overlay provision as of Q3FY21 would be towards Stage 3.
- ❑ Write off during the quarter was about Rs 300 Cr. Going forward company will do write off in stable manner rather than doing it in September and March.
- ❑ Management will look to maintain NNPA around 4% going forward.
- ❑ cost to income ratio Reduction is on account of reduction in regional offices also company has relook at the security services expenses but with reduction in the business activities there might be some increase.
- ❑ Undrawn lines for the company would be around Rs 1500 Cr.
- ❑ Pro-forma GNPA and Reported GNPA are same for the company.

Management Concall

CCL 3QFY21 Concall Highlights:

- ❑ The Company's performance remained impacted during the quarter on account of logistics issue on account of non-availability of containers resulting into delay in dispatches to the extent of about Rs.50-60 cr. and also on account of non-realisation of MEIS proceeds during the quarter vs. (realised MEIS proceeds to the extent of Rs.11 cr. in previous corresponding quarter)
- ❑ The Company is facing issue on both exports as well as imports. For imports the company has managed to increase the inventory level to protect production constraints.
- ❑ The Company is not seeing any loss on order book position or loss to any supplier as of now because the customers will need 3-month lead time to change the supplier.
- ❑ The Management expects the prevailing issue of delay in logistics may last for another 1-1.5 months.
- ❑ As per Management, orders from Russia are been pushed by couple of months to Q4 also and also spill overs will be seen in 1QFY22.
- ❑ As per Management, the company price its products based on prevailing market situation in different countries.
- ❑ The Structure for capacity expansion for India and Vietnam will complete by the end of FY21 while the commissioning will take place in 1QFY22.
- ❑ The Company is still facing container unavailability issues and are trying to mitigate the same by changing business model for dispatches by timing imports correlating to dispatch schedules and also by utilising import containers for exports. Thus, expects the business to come back to normalcy to more than 50-60% in 4QFY21.
- ❑ The Company's 9 months volume stood at the same level as the last year 9 months volumes.
- ❑ The Company's small pack revenue increased by 40% QoQ and contributes to the extent of 15-20% for 3QFY21.
- ❑ The total revenue from domestic business stood at Rs 105 cr. for 3QFY21.
- ❑ The Company received the MEIS incentive to the extent of Rs.33 cr. in previous corresponding quarter. As on date the company has accumulated arrears of about Rs 28 cr. on MEIS which will be utilised in next 2-3 quarters.
- ❑ The capacity utilisation for Vietnam operations stood at 90% for 3QFY21.
- ❑ As per Management, in-house consumption is growing continuously while institutional business has not increased due to closure of offices.
- ❑ The Company has committed the expenditure of Rs 14 cr. for Ad spends for FY21.
- ❑ As of now the total installed capacity stood at 35000 tonnes and next year the company will add another 3500 tonnes and will target a capacity utilisation of 80-85%.

MANAPPURAM 3QFY21 Concall Highlights:

- ❑ Gold AUM grew by 24% YoY and 3% QoQ in 3QFY21 constituting 73% of the total book and the management expects the growth to continue in this segment on the back of good demand.
- ❑ On the competition front the banks are registering better growth in gold loan which is due to the higher LTV tap for them but as per the management it is a temporary phenomenon which will normalize once the regulator reduces the tap.
